

The World's Best HDMI Cables

Award-Winning, ISF Certified HDMI v2.0 Active Fiber Optical Cables by FIBBR Tech

CERTIFIED

HDMI 2.0 BLACK TECHNOLOGY

4K Optical Fiber HDMI Cable

transmission by optical fiber, zero attenuation and
resistance of interference

- HDMI v2.0
- Supports HDR10, Dolby Vision, and WCG
- Supports HDCP v2.2, EDID, CEC
- High Bandwidth, No Delay
- Zero Attenuation
- Supports Dolby TrueHD, DTS-HD Master Audio, Atmos
- 4:4:4 4K@60Hz
- 5' to 165' (1.5m to 50m)
- Cable Diameter: 4.6mm
- Jacket: PET single-silk weave
- Material: 4-core optical fiber cable
- Bandwidth: 18Gbps

YOFC BendRobust™ optical fiber

to guarantee durability in extreme conditions

1. BendRobust fiber optic to guarantee durability in extreme conditions.
2. Copper wire transmitting bypass signal.
3. Kevlar® a high strength synthetic fiber used as a reinforce agent to enhance protection.
4. LSZH Cable jacket is soft, pliable, and environmentally friendly.
5. Braided PET exterior is abrasion resistant, reducing fraying and lasting longer.
